

Adding a User Defined Field for Car Profile RAILTRAC[®] Revision Number 1 2/20/2017

Only System Administrators can add this functionality into RAILTRAC.

Once logged into RAILTRAC, click on the Car Management tab. Next, select Redefinable Fields.

| = - | Main | Config | Reference | Car Management | Reports | RAILDas | sh | | | | | |
|----------------|---------|------------------------------|------------------------|---------------------------------------------|------------------|------------|---------------|-------------|----------|----------------|------------------------|---------|
| Căr Profile | 🔊 Redef | inable Field inable Field | ls 🍰 I I Values 칠 I | mport With Add Temp mport With Update Te | olate emplate | Fleet | LP Parties | Categories | 6 | S Allowance | E Create Outage Detail | FT |
| | | | Car Profile | | | Car Assign | Lease | Operational | Hot List | Mileage | Outage Tables | FASTRAC |

The Get Data box will appear. In this screen, select New.

| Get Data | | |
|----------------------------------|-----|--------|
| Field Definition: Field Name: | | |
| | New | Cancel |

Using the drop down arrow select the Field Definition to add to the user defined field.

| Redefinable Fields 🗙 | | |
|-------------------------------------------------------------------------------------------------------------------|-------------------------------------------------|---------------|
| ● Asc ○ Des Field Def Row 1 of 0 | Find Column Where Value Field Def | Reset Eind |
| Mail Print Setup | Get Data New Delete Update | Close |
| Field Definition Field Na | me | |
| | | |
| DATE1_DUE A DATE1_PREV DATE10_DUE DATE10_PREV DATE11_PREV DATE11_PREV DATE12_DUE DATE12_PREV | | |

Once the Field Definition has been selected, fill in the Field Name and click Update. Now, select close.

| Redefinable Fields 🗙 | | | | | |
|----------------------------------------------------------------------------|--------------------------|------------|--------------|--------|---------------|
| ● Asc ● Des Row 1 of 0 | Find Column Field Def | Where = | e Yalue T | | Reset Eind |
| Mail Print Setup Print | Get Data | New | Delete | Update | ⊆lose |
| Field Definition Field Na FIELD63_CHAR TEST FIEL | me .D | | | | |

The user can now go to Car Management tab. Next, select All to view the new User Defined Field.

The Get Data For Car Mechanical Maintenance box will appear. In this screen, search for Active Status = Y. Then, click OK.

| STEM DEFAULT | incui ivi | | | - | Set as Default | Save | Setup Delete Se | tup |
|---------------|-----------|-------|---|-------|----------------|------|-----------------|-----|
| Column | | Where | | Value | | | | |
