

Reapplying CLMS on Multiple Trips RAILTRAC<sup>®</sup> Revision Number 2 4/7/2017

When CLMs and Origin/Destination Criteria are adjusted in RAILTRAC, reapplying CLMs to correct car and/or trip statuses sometimes becomes necessary. CLMs can be reapplied from anywhere a trip resides in the database.

In this example, we'll reapply CLMs on multiple open trips.

Once logged in to RAILTRAC, click on the Main tab and select Current. Then, select Open Shipments.

Multiple cars can be selected for reapplication of CLMs by querying a batch of car numbers. To query a batch of car numbers, click Cancel on the Get Data For Open Shipments window.
