

Uploading Data Using Car Profile Add Template RAILTRAC<sup>®</sup> Revision Number 1 3/1/2017

Before performing this step ensure a Car Profile Add template has been set up in RAILTRAC. All columns in Excel spreadsheet must match up with template.

Once logged into RAILTRAC, click on the Car Management tab. Next, select Import With Add Template.

= -	Main	Config	Reference	Car Management	Reports	RAILDas	sh Admin	Test				
Căr Profile		inable Field inable Field		mport With Add Temp mport With Update Te		Fleet	LP Parties	Categories	6	S Allowance	Create Outage Detail	FT
			Car Profile			Car Assign	Lease	Operational	Hot List	Mileage	Outage Tables	FASTRAC

The Template Get Data box will appear. In this screen, use the drop down arrow under the Template Name to select the template to be used to upload data.

Template Get Data				
Template Name			System Wide	Update Car Assign
