RAILPORT RELEASE NOTES

6/2025

Version 6.0.4

RAILPORT

❖ **ENHANCEMENTS**
  ➢ Users can now enter email addresses manually in addition to selecting from address book contacts when sending emails from the Report Designer.
  ➢ Support Tools and Customer Tools now include an option to migrate user accounts within the same customer.
  ➢ An indicator has been added to the Scheduler History Log dialog to show when data is being retrieved.
  ➢ The Report Owner ID is now always displayed in the Report Information dialog.

❖ **BUG FIXES**
  ➢ The system now prevents users from modifying locked filters.
  ➢ Complex report designs now load in the report designer without causing crashes.
  ➢ Users can now add contacts to the address book with email addresses of up to 100 characters.
