ACCESSCONTROL®

RELEASE NOTES

VERSION 2.4

Overview

AccessControl® Version 2.4 includes new customer-requested features and a range of stability and issue fixes.

Enhancements

AC USERS

- New SSO login
- Ability to add comments/notes for open requests (feature parity with Classic version)
- Display only active customer databases in the Add/Edit User section, based on `bds_active_hosted_ind_flag = 'Y'` in the `RTO_CUSTOMER` table

BL IT

DB Difference report for BL IT User

Resolutions

- Fix for data not displaying in Days Until Suspended report
- Fix for the error popup when adding a user using the Copy Profile feature
- Fix for issues with adding/removing the same applications and roles for two different customers
- Fixes related to the Deactivate functionality
- IT User: Fixes for bulk approval issues
- Fix for users who were previously associated with other organizations
- Fixes for issues identified after the Keycloak integration
