# RAILPORT® Release Notes

**Confidentiality Notice**

**RAILPORT®**
**RELEASE NOTES**
**VERSION 6.2.3**

**Overview**
RAILPORT® Version 6.2.3 resolves inconsistencies in how the system supplies the logged-in User ID to reports internally, ensuring accurate user identification where applicable.

# Resolutions

## RESOLUTION OF USER ID CASE MISMATCH BETWEEN SYSTEMS

- Resolved a user ID case-sensitivity mismatch between the BDS_INTERNAL database and AuthServer that caused report execution issues by ensuring the exact user ID is consistently retrieved from the BDS_INTERNAL database.
