

The logo for EM Equipment Manager, featuring the letters 'EM' in large blue font, followed by 'EQUIPMENT' in white font and 'MANAGER' in blue font, all on a dark gray background.

EM EQUIPMENT MANAGER

Equipment Manager Release Notes

VERSION 1.5

BOURQUE LOGISTICS

JUNE 2026

Confidentiality Notice

This document contains confidential information and trade secrets of Bourque Logistics, Inc. It is intended solely for the use of authorized Bourque licensees. Unauthorized use, distribution, or disclosure is strictly prohibited.

Enhancements

- Added the ability to add information to multiple railcars at once in the Equipment Module
 - Asset Assign
 - Fleet Assign
 - Business Group
 - Reporting Categories
 - Lease
- Added a new module called Equipment Mechanical Fields: This module allows users to view data related to a railcar from multiple other modules. This includes Equipment fields, Mechanical fields, Mechanical Dates, Mechanical Due Dates, Reporting Categories, components and comments.
- After a user defined component is added, it's immediately available in Get Data
- Updated format on confirmation messages when deleting a record.
- Now prompting users to confirm exit without saving when a partial edit is made in a detail record on the Rail Equipment Current Dates window.
- Fleet names and IDs are now displayed in Equipment Manager Fleet Assign detail.
- Business Group names and IDs are now displayed in Fleet Assign details.
- We have changed the field name Paint Due Date to Paint Date where appropriate - we now have Paint Date and Paint Due Date.
- Prevent user from ending Asset Assignment or deleting equipment when it is associated with an open trip.
- Added a validation to ensure Lease Actual Arrival dates are within the date ranges of a lease when a lease edit occurs.

Resolutions

- When an asset assign with an associated sublease is initially added, the Assigned to Rider Date is populated with the Asset Status Begin Date and read only to remain consistent with leases..
- Prevent Users from entering a numeric for the Mech Field input value.
- Improved speed to load Equipment Module grid.
- The Equipment Grid can now be filtered on whole numbers.
- System Numerical Mechanical fields now display fraction digits correctly.
- Fixed issue with undeleting a compartment.
- Fixed issue with querying more than 45 Equipment IDs.
Fixed an issue with grid filters not working for Equipment, Equipment Component, and Rail Equipment Current Dates grids.
